

Electrocardiogram Report

Name: Robert Johnson

Age: 46

Gender: Male

Date: 2023-10-04

Patient ID: RJ-1102

Findings:

The electrocardiogram shows a regular sinus rhythm but noted episodes of ventricular ectopic beats. The QT interval was also on the upper limit of normal.

Diagnosis:

The ventricular ectopic beats and prolonged QT interval suggest a potential risk for arrhythmias. The patient should consult a cardiologist for a comprehensive evaluation and treatment plan.
